The editors of the Aragon Outlook set out to learn more about how funds are distributed for different Aragon activities, specifically, the music program, drama program and athletics. We found that rather than the school funding these activities, each program had its own combination of district funding, PTSO funding and booster groups. We also found that due to the absence of or limited capacity of some of these activities over the last two years due to COVID-19, the revenue and expenses for these activities were significantly impacted. This spread does not fully represent the costs of an entire program for an entire school year, but focuses on select parts of the funds that go into a program.
